

CHEMISTRY 212 WS03

CIITN Assignment #4: INTRA-GROUP PEER REVIEW

Fill out one questionnaire for each of the other members of your group. The questionnaire consists of 10 questions with possible responses from “1” (low) to “5” (high). The highest score is 50 points. The questionnaire was developed in collaboration with Dr. Martha Patton of the MU Campus Writing Program. The questionnaires will NOT be made available to the students that are being evaluated. We will collect all the responses for each student and average the results. That average will be the score for assignment #4 without interference from the instructor.

Name of Chem 212 W03 Collaborative Group: _____

Evaluation of Group Member _____ by _____

						Comments
Fulfilled agreed upon responsibilities	1	2	3	4	5	
Was dependable	1	2	3	4	5	
Was cooperative	1	2	3	4	5	
Demonstrated positive effort	1	2	3	4	5	
Produced best possible first drafts	1	2	3	4	5	
Was able to meet deadlines	1	2	3	4	5	
Contributed in a timely fashion	1	2	3	4	5	
Chemistry background was reliable	1	2	3	4	5	
Accepted constructive criticism	1	2	3	4	5	
Produced best possible final draft	1	2	3	4	5
